RE: RCRA letter of inadequacy (L-087)
Johnson Controls, Inc.
IND009549593

EPA Region 5 Records Ctr.

305948

Dear Mr. Malone:

Johnson Controls has contacted EIS Environmental Engineers Inc. South Bend, Indiana; Mr. Stephen Nye, President of EIS has submitted a proposal concerning soil sampling. They will provide the following services.

1. Split-spoon soil sampling at four (4) locations to a depth of 20 feet at each location. Sampling will be performed at 5 foot intervals.
2. Prepare soil boring logs for each location.
3. Provide chemical analysis of 16 soil samplings (4/boring) for total cadmium, zinc and chromium.
4. Prepare a report of the work. The soil boring will be supervised by an EIS Geologist who will prepare the boring logs. Laboratory analysis will follow USEPA procedures specified in EPA publication SW-8. Chain-of-custody forms will be provided.

If the above proposal meets your requirements, please telephone me at (219)533-2111, and I will proceed.

Sincerely,

John G. Fecteau
